bread of life bible fellowship

Dear TEAM,

Monika and I are greatly encouraged once again to see God work. There has been a breakthrough in our Bible study group. A few weeks ago our small flat was full, and there were no seats left. The breakthrough comes in the form of people finally realizing they can bring friends and receive help. God is bringing hope to the hopeless. Monika and I noticed one lady's countenance has drastically changed. She looks so good and is smiling for the first time since we've known her. She is even reaching out to others. Each person is special and comes to us with a powerful story of God's grace working in their lives.

enjoying another study

A couple of you bought me a video camera when I first moved to Austria. I learned to use it and made a few videos that were used by God in many ways. It died a few years ago, and I gave up the idea to ever make videos again, but several months ago, I felt the Holy Spirit was leading me to start a ministry for young people using video as the tool for making contact with them. I shared this with a young Christian man. One day I was discussing this with someone and another young person overheard me talking and said that he wanted to be a part of that ministry. So, I invited the two

young guys to meet with me each week to pray and dream. We have been studying through the Christian Foundations material I have used for years, and they have started growing in their faith. Then after one meeting, we prayed and I reminded God that we have a video ministry with no equipment. When we finished praying, I felt inspired by the Holy Spirit to tell the guys that God was going to answer. "Go ahead and laugh at me," I said teasingly to them. But I told them that God can at any moment change our situation. The very next day I received an email from someone who wanted me to make them a video and they even offered to pay me real money. Then the following day, I got an email from someone on

friday night Bible study and fellowship

the BOLBF TEAM saying that God had blessed her husband and that they wanted to make a donation. Within the next week or two, we will have 3 cameras and microphones to start God's work! Can you imagine what that did for the boy's faith (and mine)?

I took pictures of students from Vienna Christian School as they went into the heart of Vienna to take a survey and talk about Jesus as the Holy Spirit gave them opportunity.

I was so excited to see the joy in their faces as God worked through them.
