bread of life bible fellowship

Dear Team,

The winter was long, cold, and gray, but spring has finally burst forth in all its glory. The new life, vivid colors, bright sunshine, and warmth are welcomed at our home. Just think of the contrast when Jesus comes back! This current fallen world will seem like a dream as eternity swallows the past and the our new adventures with HIM begin.

Aren't we living in exciting times? We have gone from the most profitable economy in human history to a global meltdown almost over night. World leaders here are insisting that the solution is a common world currency and even suggesting single world government. It is interesting see how easy the people in Europe surrender to the new vision being spun for the them. The former Prime Minister of England, Tony Blair, has taken globalization to a new level by seeking to unite the religions of the world. He claims that the solution to globalization will come through a "new world order" as being taught through his inter-faith foundation. Mr. Blair has been actively seeking to become President of the European Union, a position that does not yet exist but is seriously being considered. Many Bible scholars believe the antichrist will be emerging out of a coalition of nations from the old Roman Empire as mentioned in the prophecies of Daniel the prophet. There are many signs pointing to the soon return of Jesus, and we should be alert and eagerly watching. With so many uncertainties in today's world, people are searching for direction and in need of hope. Don't let this moment of opportunity pass you by. Be bold. Be brave. God has given us a living hope that HE is expecting to be shared with those around us.

**"The great God has shown  
Your Majesty what will happen  
in the future. The dream is true,  
and its meaning is certain."

DVD Cover for Jerry Jacoby

### *DVD finished and delivered ...*

Mr. Jacoby's video was finished and shown to a school official who is now wanting to book him in all of the English Primary Schools.

birthday for Trudi at Friday night Bible study

*Trudi, one of the ladies attending our Friday night Bible study, just keeps blessing us. It is so beautiful to watch her new found faith blossom and grow. One evening Trudi innocently told us that until she came to the Bible study and heard of God's love, she never felt any value in her life. As we go through the book of Ephesians, she has discovered what GRACE means. "I didn't know why I never had any peace in my life until I experienced God's grace," she told us. "Learning about His grace has really helped me." - Trudi*
